

**Production Display wish list**

All our production displays are custom made to meet your exact requirements.

We want to offer you a production display which will deliver all the benefits you want of it, at the most economical possible cost.

So, we will need to know what you want to achieve with the display and which conditions the display will operate in.

Your Name .....

Company Name .....

Your job function .....

Contact phone number .....

Contact email address .....

1. What are the main benefits you want to achieve by installing a production display in your factory?

.....  
.....  
.....  
.....  
.....

2. Please sketch below a layout of your display as **you** would like it, so we can match your requirements. (Examples of other custom displays are at <http://london-electronics.com/large-display-custom.php> )

3. How many of these displays will you need?.....

Please now go to Question 4 on page 2 ....

4. How far away from the display will your staff be?

(We need to choose digits which will be big enough to be seen clearly, but not too big to be over-priced.)

The maximum viewing distance needs to be .....metres

5. How do you want to get information from the production line onto the display?

(Could be via an existing computer control system, by installing sensors onto the lines, or by an operator manually entering data)

.....  
.....  
.....  
.....

6. What will the environment be like for the display?

What minimum temperature will the display be working in? .....

What maximum temperature will the display be working in? .....

Will the display be covered in dust? .....

Will the display be splashed with water? .....

Are there any other environmental hazards we should know about?.....

7. What power supply will you run the display off? 110VAC
